

NOTABLES

Firm Plant Capacity:	5.0 mgd
Raw Water Flow Capacity:	6.3 mgd
Flocculation Tank Volume (total):	156,600 gallons
Sedimentation Tank Volume (total):	169,000 gallons
Feed Tank Volume (total):	83,500 gallons
Membrane Feed Pumps:	3 at 4.25 mgd each
Membrane Filter Arrays:	4
Filter Modules per Array:	120
Membrane Filter Area (total):	196,800 sq. ft.

Project Team:

Owner:	Marinette Water Utility
Engineers:	Mead & Hunt, Inc. Fishbeck, Thompson, Carr & Huber, Inc.
General Contractor:	Miron Construction Co., Inc.
Mechanical Contractor:	August-Winter & Sons, Inc.
Electrical Contractor:	Faith Technologies
Membrane Supplier:	Siemens Water Technologies Corp.
